

Oberstdorf Shorttrack Summercamp 2025

Bulletin no. 10

19 July 2025

Shorttrack competition Friday & Saturday 8 & 9 August 2025

On Friday and Saturday the shorttrack competition is held with more than 200 skaters from 40 clubs out of 10 countries, what makes it the biggest competition ever in the history of the Oberstdorf Shorttrack Summercamp. The competition will have 2 distances in all-final system. All skaters will skate finals and score points for the Overall Classification for the Summercamp Trophy 2025. This Overall Classification also includes the results of the Mountain Run and the Biathlon competition. Before the competition starts skaters have to return their Red T-shirt with BIB-number (used for the Mountain Run and Biathlon) and have this replaced by the Yellow helmet cover. Skaters with a Skate-Tec helmet will get stickers with the Race number for putting on the helmet.

ISU Starters Seminar

During the Shorttrack competition a Seminar for Starters is held. More than 15 Starters from all over the world will have 3 days of theoretical lessons and video-training as well as real competition starting. For the skaters it means that every race will have an other starter and that applying the regulations for starting will be very accurate.

Video Replay & Live stream video

During the competition high level of Video Replay will be used. This is not only good for the competition but is also for training for the officials to learn to work with this for the important competitions during the winter season. Besides the Video Replay there will be a live stream video available for the public at home. They can see the competition on the website www.Shorttrackonline.info page Web-TV and there will also be a live-stream on YouTube.

Competition Officials of High standard

The Oberstdorf Shorttrack Summercamp is not only for the skaters a week of sportive enjoyment. Also many officials love to come to Oberstdorf for the Summercamp. Many of these officials are on the ISU list of International Officials. In winter time they officiate at competitions like the World Tour, World Championships or StarClass competitions. Also several of them will be active the upcoming winter at the Olympic Winter Games. They support during the week the Mountain Run, the Biathlon and the Shorttrack competition as official. They pay their own travel and hotel-costs! We are very lucky and happy to have this team of officials with us for the Oberstdorf Shorttrack Summercamp.

Personal Records

The Oberstdorf Shorttrack Summercamp has, due to the fact that it is a whole week of training and sportive activities, a very positive influence on the condition and motivation of the skaters.

In the past years in general 60% of the attending skaters has been skating a Personal Record on one or two of the distances during the Summercamp Shorttrack competition.

Also many skaters already qualify with the times skated in Oberstdorf for the limit-times of the StarClass series.

Volunteers for the Shorttrack competition

For the shorttrack-competition we need a lot of volunteers to help as it is 2 full days of competition. We need people for the Heatbox to hand-out transponders and put skaters ready for the competition. For the Lap-board we need operators. Track-stewards (with skates) to do the blocks on the Ice. People who assist with handing out the water cans in between the races. Operators for the Video-camera, an Announcer etc. Also we need volunteers for the jury catering during the competition. Please inform us as soon as possible if you are available for this. In the beginning of the week, on saturday at the Registration, you still can sign-in for volunteer-jobs on the special forms at the Volunteer Registration Desk.
